

Limit Your Largest Attack Surface – Your Staff

The Problem

The FBI's 2019 Internet Crime Report states that Business Email Compromise and Email Account Compromise accounted for a \$1.7 billion loss in the U.S. These attack vectors bring forth the scariest situations in the global arena.

Scary Stats on Phishing Attacks

- ▶ A 667% global spike in email phishing attacks occurred due to COVID-19 fear (Barracuda Networks).
- ▶ 22% of data breaches start with phishing (Verizon's 2020 Data Breach Investigations Report).

The Solution

Get the best defense against any cyberattack and data breach with EC-Council's "customizable" Aware, a cybersecurity solution combining simulated phishing attacks with set-and-go training modules. Protect your confidential information/documents/emails and more with this teacher of security awareness.

PREVENT YOUR FIRM FROM BEING THE NEXT VICTIM OF PHISHING TODAY!
