

# Stay Vigilant Against the Next Phishing Attack

Dedicated services to mitigate and remediate the cyber plague that is menacing the digital world today.

## What Is Aware?

Aware is a globally available tool that provides security awareness solutions to help protect your business against cyberattacks.

## Its Services

The comprehensive security awareness solution includes:

E-Mail Phishing

Vishing

SMiShing

USB Baiting

## Its Mission

Aware aims to provide phishing, vishing, SMiShing, and USB baiting simulations, as well as security awareness trainings, to teach employees how to spot phishing scams and avoid the hefty cost of a data breach.

## Who Does It Serve?

All corporate houses and various sectors:

- ▶ Healthcare
- ▶ Media and Communication
- ▶ Banking and Finance
- ▶ Education
- ▶ Manufacturing
- ▶ Retail and eCommerce
- ▶ Any other firms under constant cyber threats
